CRASH DATA RETRIEVAL OPERATORS & ANALYSIS COURSE

Presented by Brad Muir and Jon Northrup

November 11 - 15, 2019

In the Greater Toronto Area

CATAIR (Ontario Region) announces the Crash Data Retrieval Operators and Analysis Course. This course will be held in the Greater Toronto Area (location to be determined). This course will be presented by experienced instructors Brad Muir and Jon Northrup of Crash Data Specialists LLC.

This course introduces the Bosch Crash Data Retrieval System and other retrieval systems such as Hyundai, Kia, and Mitsubishi. Covered material includes methods for imaging Event Data Recorder information from various electronic modules and vehicle manufacturers. Data availability, interpretation and limitations for the various automotive manufacturers will also be discussed. The participant will be able to provide a situationally appropriate data analysis at the conclusion of the course.

Topics include:

- CDR system components and terminology
- Methods for accessing data and troubleshooting connectivity
- Hands-on practical training, including back-powering
- Generating and analyzing data reports
- Data interpretation; including the significance of Delta-V, Closing Speed, and Principle Direction of Force
- Data accuracy, reliability, limitations, and more...

Those **only** wishing to take the CDR Operator's portion of the course will need to register for the first day (see registration).
